

## **LU BANCU – boundary of the property for sale**

The thick white line on the satellite photo marks the area included: Foglio 25, mappali 438, 425 & 97. The thin white line encloses the garden which we maintained by lawnmower. The rest we planned to keep under control by grazing once the fence was complete. The fence line has been cleared, the posts are all in, and sections of dry stone wall have been built. All that remains to do is hang the fence, but by that stage Elinor was pregnant and we had decided to return to the UK.
